

**Equipment Name:** Hammer Mill  
**Equipment ID:** HM-500  
**Model:** HM-500  
**Manufacturer:** ABC Equipment Co.  
**Location:** Milling Room A

**Maintenance Record:**

Date	Start Time	End Time	Maintenance Type	Description of Work Performed	Technician	Equipment Status	Observations	Recommendations
2023-01-01	08:00 AM	08:45 AM	Corrective	Equipment shutdown due to <u>excessive noise</u> .	Donald	Out of Service	Unusual noise observed during operation.	Investigate source of unusual noise.
2023-02-14	10:30 AM	11:00 AM	Corrective	Shutdown due to <u>power fluctuation</u> concern.	Donald	Out of Service	Suspected power fluctuations during operation.	Implement surge protection measures.
2023-03-02	07:45 AM	08:30 AM	Corrective	Shutdown due to <u>material feed issues</u> .	Donald	Out of Service	Inconsistent material feeding observed.	Inspect and optimize material feeding system.
2023-04-11	11:45 AM	12:15 PM	Corrective	Equipment shutdown due to <u>unusual vibrations</u> .	Donald	Out of Service	Excessive vibration levels noted.	Investigate and balance equipment components.
2023-05-02	09:45 AM	10:30 AM	Corrective	Shutdown due to <u>operational inconsistency</u> .	Donald	Out of Service	Electrical issue suspected.	Investigate and calibrate operational settings.
2023-06-02	07:45 AM	09:30 AM	Corrective	Equipment shutdown due to <u>hammer jam</u> .	Donald	Out of Service	Inconsistent operation observed.	Investigate source of foreign matter in grains.
